Midshore Riverkeeper Conservancy is a non-profit organization dedicated to the restoration and preservation of the Choptank River and its tributaries, the Miles and Wye Rivers, and Eastern Bay.

We serve as an advocate for the health of these tributaries, and support education, outreach, and restoration programs that promote environmental awareness of the importance of these rivers to the community, of the issues that threaten their vitality, and of the solutions that must be implemented to preserve them.

The conservancy's Choptank Riverkeeper and Miles-Wye Riverkeeper provide on-the-water vigilance and, as members of the Waterkeeper Alliance, work to fight pollution and to strengthen environmental laws and regulations.
